Tic Tac Toe; Three Sheep in a Row Game Directions

- 1) Sort sheep colors into separate stacks.
You will have one stack of white cards for player one (child) and one stack of black cards for player two (parent).
- 2) Each player mixes up their sheep cards and puts them face down.
- 3) Player 1 (child) draws a card out from his/her stack. He/she looks at the word on the card and matches it to the same word on the game board. (Players who can read words help younger children match words, encourage young children to say the word).
- 4) Remind the child that they are trying to match words and get three in a row.
- 5) If a player draws a card and there is no match left on the board, the player loses the turn.
- 6) Player 2 (parent) repeats step 3 & 4.
- 7) The game continues until one of the players gets:
